

P210

Buono per accoppiamenti.

Specifiche generali

Densità :1,40 g/cm³

Colore:Giallo

Max. moisture absorption (at 23 °C/73 °F, 50% r.h.):0,30

Max. water absorption:0,50

Mechanical properties

Modulus of elasticity:2.500,00

Flexural strength (at 20 °C/68 °F):70,00 MPa

Maximum surface pressure (at 20 °C/68 °F):50,00 MPa

Shore-D Hardness:75

Caratteristiche termiche info

Max. long-term application temperature °:100 °C

Max. short-term application temperature:160 °C

Lower long-term application temperature:-40 °C

Electrical properties

Specific volume resistance:> 10¹²

Surface resistance:> 10¹¹

Food sector

Conformity according to FDA :No

Conformity according to EU 10/2011 EG:No

Ulteriori caratteristiche

Usage under water No

Dirt resistance Sì

Mould-free according to DIN EN ISO 846 Procedure A No
